

MFLEAT

Building on the success of the NCHRP 350 FLEAT and the MASH MSKT tangent terminal, RSI is proud to announce a MASH 2016 compliant flared terminal; the MFLEAT.

MFLEAT Features and Benefits

- MASH 2016 Test Level 3 compliant.
- Some parts are interchangeable with tangent MASH MSKT terminal.
- Energy absorbing (straight) flared terminal.
- Same ease of installation as FLEAT system.
- Same field proven technology used on FLEAT system.
- Uses generic guardrail posts at locations 4 thru 8.
